

Using the Print widget

1. Click the print icon to open the Print widget.

2. Click **Print** to submit all information to the print service. A progress bar displays next to the executing task.

3. Upon the completion of the print job, a link to the print output displays. Click the task to open the file in a new window.

4. Save the file in the new window to your computer or smart phone
5. The map you created can be used by the PDF Maps smartphone application. The url for this application is at <http://www.avenza.com/pdf-maps>. A tutorial on using the PDF Maps Application is located at <https://www.youtube.com/watch?v=93-2BZxKHlg>
6. Click **Clear Prints** to clear the print history.
